Case Name: VLSI Technology LLC v. Intel Corporation

Case Number: [5:17-cv-05671-BLF](#)

Filer:

Document Number: 297 (No document attached)

Docket Text:

Order denying [292] Administrative Motion for Relief From Protective Order entered by Judge Nathanael M. Cousins. The Court finds that Intel has not established good cause for relief. It has not shown the relevance of the materials requested for the antitrust case before Judge Chen. Moreover, the Court finds that VLSI relied on the protective order and it would be unfair to grant the relief requested by Intel at this time. (This is a text-only entry generated by the court. There is no document associated with this entry.)
